- Node.js
- Claude Code
- React
- CI/CD
- Tailwind CSS
- Clear Communication
- Fusion
- C++
- Trello
- Agile Methodology

Experience

Game Design Instructor
Game-U May 2026-Present

- Instructed students in a wide variety of disciplines including **programming** and **3D modeling**
- Submitted lesson recaps in a timely manner
- Provided monthly updates to supervisor regarding student progress and general welfare
- Tailored lesson plans for each individual student
- Stepped in for absent instructors and taught their classes

Gameplay Developer
Engine Room VR June 2023-April 2026

- Implemented the viral 'Fists of Fury' minigame that **tripled** the game's daily active users
- Built several game systems in **C# for Unity**, including a calorie tracker, boxer damage visuals, and a tutorial walkthrough

- Coordinated numerous branches of the project's **Git repository** with team members
- Logged and resolved on average **8 bugs per week** using the project's Trello board
- Collaborated across disciplines to integrate **dozens of assets** into the project
- Overhauled **UI functionality and aesthetics** based on player feedback and internal testing
- Ported the 'Fists of Fury' minigame **into multiplayer** using the Fusion 1 framework
- Learned new skills as needed, including VR programming, multiplayer frameworks, and TypeScript

Academic Tutor
TutorMe Education June 2021-May 2023

- Tailored lesson plans for individual students, boosting their average grades by **at least one letter grade**
- **Communicated** with students' parents regularly, giving them updates of their child(ren)'s progress
- Maintained meticulous records of **10+ lessons** a week

Education
